

AP World History
Ancient Societies Comparison

Name _____

As we survey the earliest civilizations around the world, it's time to compare them. Complete the table below as completely as you can. I know that there isn't information for every box, but fill out as much as you can find in the text, your notes & memory. Organizing information that you've learned in different chapters across several days/weeks/months is an important skill to develop. Your answers DON'T need to be in complete sentences. Simple "bullet point" words are just fine. Make sure that all examples date from before 600 BCE.
